Subject: For today's 11:00 discussion
Attachments: Draft FL MOA language on ESA 5-2v4PMU RHC and MLH.DOCX

We have at least three issues to discuss at 11:00. For the ESA discussion, now that we are moving forward, Rosemary Matt and I went through the MOA and are recommending some changes. We hope this does not cause problems, but we felt we needed to clarify a few points, and wanted to discuss this with you all. Attached is our edited version. Sorry for the late notice.

Moving forward, there have been planning discussions with FDEP, and their preference is to not use the 3:00 bi-weekly, but set up a smaller meeting to discuss this with them, so we need to decide who should attend from EPA.

The two other issues we need to discuss are the permit modification issue, and the public notice issue. I have copied my earlier comments to set the stage for the discussion since not everyone was on that email chain.
